

TECHNOVANZA

# VJTI

The Veermata Jijabai Technological Institute, founded in 1887, is one of the most respected Engineering Institutes in the country. The institute was given its present title on January 26, 1997, and was formerly known as the Victoria Jubilee Technical Institute. VJTI is based on a sprawling 16 acre campus at Matunga in the heart of Mumbai, India.

The institute is reputed for excellent training in courses in engineering and technology at diploma, degree and post graduate levels. The institute has a total strength of over 3000 students.

The institute has a proud legacy of over 129 years, producing highly influential alumni who have left their mark in different fields all over the world.

VJTI is regularly ranked as one of the best engineering colleges in the country, and has become a brand in itself.

# TECHNOVANZA

Technovanza, born in 2001 due to an inundating thirst for creativity among our students and unparalleled guidance from our faculty, has grown to become one of the largest and most awaited techno-managerial events in the country.

Technovanza has been garnering crowds in thousands over the past decade, and has grown exponentially over the past few years. The event acts as a melting pot for Industry, Academia and Technology to achieve the ultimate aim of Taking Technology to Society.

Technovanza takes immense pride in the fact that we are a not-for-profit student organisation, completely organised by the student fraternity here without any institutional assistance.

Prizes Worth

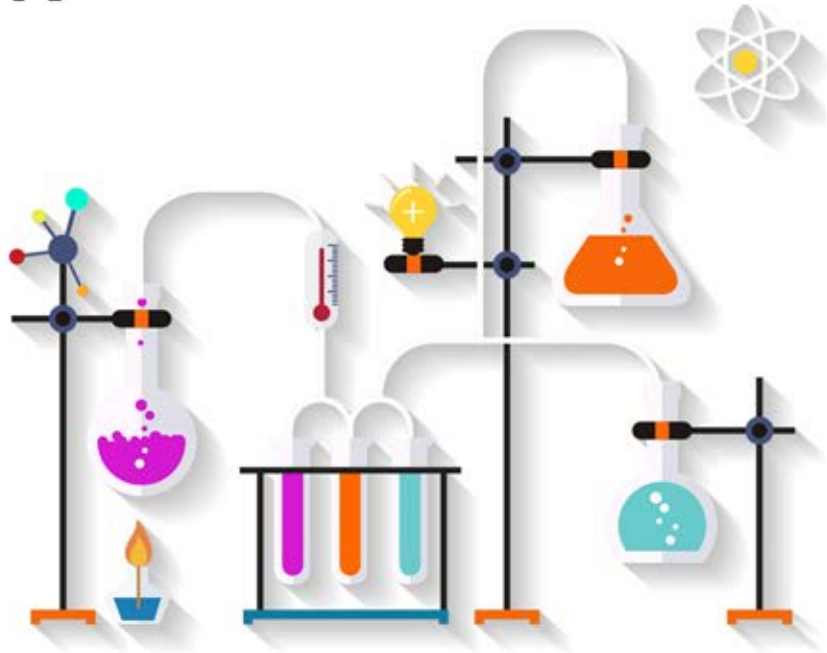

₹25,000

# SCHOOL CUP

A new initiative by Technovanza giving students an opportunity to explore their abilities and talents through various competitions held like Quiriosity, Sixty Seconds To Fame, Science Fair, Spell Bee and many other social media contests. Winning school will receive a trophy and prizes.

# SCIENCE FAIR

Future scientists put up their projects on display! The science fair is an opportunity to exhibit projects and research for the scientists of tomorrow. Exposure and appreciation from a crowd of thousands will motivate these young minds to reach greater heights.

# QURIOSITY

It's time for Quriosity!  
Here's an exciting science and technology quiz for the inquisitive minds. An amazing opportunity for students to test their wit and knowledge.

# SIXTY SECONDS TO FAME

Sixty seconds is all u have to conquer this fame! It is an event where aspirants are provided with a stage to come and speak up all they can about science and technology topics in a matter of 60 seconds!

Think you are good at spelling? Here's an opportunity to flaunt your spelling skills and climb up the vocabulary ladder. A traditional Spell Bee with lot of twists!
