Trimble BIM Contest

Introduction to Trimble:

“The transition from education to work is often both a challenge and a prospect for a young graduate. To ease this step, we offer all educational institutions affordable educational license program. The program provides students with a firm foundation to learn and train on Tekla Structures’ Building Information Modelling (BIM) software.

Contest:

Technovanza presents Trimble BIM contest, a building information modelling contest where you have to create different models using Tekla software.

In this contest, you need to build a structure as per the instructions given in the problem statement. Fastest and most accurate one will win the contest.

Total cash prize – INR 15000

Date -26/12/17

Instructions to be followed:

- Bring your own laptop.
- Software will be provided on the spot (In case you don’t have one).
- Duration of the event will be from 10 am to 3 pm.
- Participants from all the branches are welcome.
- Problem statement will be given on the spot.
